- Today you are creating a project that will help you get to know the Adobe Master Collection CS6 on your computer. For this project, you will need to research the software applications that we are going to learn more about this semester and collect the requested information.
- You will use the Internet to find the information and then create a presentation using SlideRocket. *(You will need to access SlideRocket via LPS Google Apps)* The audience for the presentation is other students! It is your job to create an informational presentation about the Adobe software.

-Your presentation should answer the following questions and should also include a logo for each application using the snipping tool.

1. What is the purpose of Adobe Photoshop?
2. What is the purpose of Adobe Premiere Pro?
3. What is the purpose of Adobe Audition?
4. What is the purpose of Adobe Flash?
5. What is the purpose of Adobe Fireworks?
6. What is the purpose of Adobe Dreamweaver?
7. What is the Adobe Master Collection?
8. What is the cost to purchase the Adobe Master Collection CS6 (not the update, the program purchase price)?
9. Which application are you most interested in learning more about and why?
10. Which application that we are NOT covering, are you interested in learning more about and why? *(On your computer search Adobe & choose an application based on additional Adobe TV research)*

-Use the Adobe TV website to watch some tutorials to explain each program. Search for the name of the program and look for the "Getting Started" tutorial on CS5.5 or use the hyperlinks above.
-Review the rubric below for grading.

<u>Get To Know Your Software – Grading Rubric</u>

• Includes title slide	/ 1
• Includes slide for each question/software	/ 5
• Includes logo on each slide	/ 2
• Information is complete, accurate, no spelling/grammar errors	/ 2
TOTAL	/ 10
